

Isaac Kelly

Melbourne, Victoria | kozmaisaac@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Junior Software Engineer / Full Stack Developer with a Bachelor of Information Technology and hands-on experience building web applications, cloud infrastructure, and AI-powered tools. Strong foundation in JavaScript, Python, React, Node.js, AWS, and Docker, with team leadership experience delivering complex technical projects. Seeking junior software, backend, full stack, DevOps, or data/AI-focused roles based in Melbourne.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C# (.NET Core/ASP.NET Core), PHP, HTML/CSS

Frameworks: React, Node.js, Express, Bootstrap

DevOps & Cloud: AWS, Docker, Terraform, Ansible, GitHub Actions

Databases & APIs: MongoDB, MySQL, PostgreSQL, REST APIs

AI Tools: OpenAI API, LangChain, Hugging Face

Data Science: Pandas, NumPy, Streamlit, Data Analysis, Data Visualisation

Other: Git, Linux, Agile/Scrum

PROJECTS

VR Team Leader – Food In Space Game Simulation (University Capstone Project)

Role: Team Lead & Developer | Tools: Unity, C#, Agile

- Led a team of four developers to deliver an immersive VR training simulation from concept to final release.
- Owned sprint planning, task allocation, and stakeholder communication with academic and industry reviewers.
- Integrated 3D assets, interaction logic, and performance optimisations to deliver a smooth VR experience.
- Presented the final product to university and industry panels, achieving top marks for innovation and execution.

NFL Combine Analytics Dashboard

Role: Solo Developer | Tools: Python, Streamlit | [Live App](#) | [GitHub Repo](#)

- Designed a position-adjusted scoring algorithm that generates a standardised athletic score out of 100, enabling fair comparison of NFL Combine participants across positions.
- Built player ranking and historical similarity matching to surface comparable athletes based on combine performance metrics.
- Developed and deployed an interactive Streamlit web application using Python, Pandas, and NumPy for real-time data analysis and visualisation.

DevOps Infrastructure Deployment (AWS, Terraform, Ansible, Docker)

Role: DevOps Engineer | [GitHub Repo](#)

- Provisioned AWS infrastructure with Terraform and Ansible, including EC2 instances, load balancing, and automated environment configurations.
- Containerised a full stack application and PostgreSQL database with Docker to support consistent deployment across environments.
- Implemented remote state management using S3 and DynamoDB to support CI/CD workflows.

E-Commerce Clothing Store (PHP, JavaScript, MySQL)

Role: Full Stack Developer | [GitHub Repo](#)

- Built a full-featured e-commerce platform including authentication, admin panel, and shopping cart logic.
- Implemented secure authentication and improved database query performance to support a smoother user experience.
- Developed forum functionality and user profiles to simulate real-world commerce systems.

Burrito King – Online Ordering System

Role: Full Stack Developer | [GitHub Repo](#)

- Built modular JavaFX application for ordering with dynamic ingredient selection and pricing logic.
- Designed OOP structure and validated inputs with real-time pricing summary.
- Simulated real-world ordering flow with modular functions for order summary and receipt logic.

Super Nice Clothing – Commercial Website

Role: Web Developer | [Link to site](#)

- Developed a custom website for a local clothing brand, focused on usability, mobile responsiveness, and brand consistency.
- Collaborated directly with brand owner to align the website with business goals and visual identity.

EDUCATION & CERTIFICATIONS

Bachelor of Information Technology – RMIT University, 2024 (Australia)

Certifications: AWS Cloud Foundations | Agile Development Principles

ADDITIONAL EXPERIENCE

Bartender – W Hotel London (Apr 2025 – Aug 2026)

- Operated a high volume bar independently, delivering premium service in a 5-star environment.
- Maintained accuracy, speed, and customer satisfaction under pressure.

Barista / Bartender – Arts Centre Melbourne (Jun 2022 – Feb 2025)

- Delivered high-quality customer service in a high-pressure team environment.
- Balanced multiple tasks and shifts while consistently meeting performance expectations.

Receptionist & Gym Instructor – Victoria University (Nov 2023 – Feb 2025)

- Managed reception operations and supported member engagement in a community-focused environment.
- Developed strong communication and client-handling skills, contributing to team efficiency.

Interests: Sports performance, athletics, AI applications.
